Lukas had to leave this morning to
get back to ABR. I'm so glad he was
here and certainly understand him needing to
get back here and to work. I'll look forward
to any visit he is able to manage. What an
amazing young man. I am so very proud of
him as I am of Jeff and Allen.
I truly feel so fortunate to have such
an amazing husband and 3 wonderful children.

I heard from my oncologist this
morning. I have an appt. scheduled
for next Thursday, March 6th to meet
Dr. Matthew Elders and hear about Phase 2.
I'm anxious to get started. The sooner
I regain my strength, the sooner I can
live my life.

into disaster.*
