It's been a long day. My friends have been very helpful. Faye is going to assist me with work ~~with~~ and other Benefit issues. Allison and Ann were also helpful.

Kathy is talking with colleagues at the University in the Neurosurgery clinic <sup>to help</sup> in getting a 2nd opinion. She has given me the names of 2 highly regarded neurosurgeons at the U as another option. I'll find out more about all this on Monday. For today I'm done thinking about it.

The rest of this evening will be a nice quiet time with Mike.
